

NEWSLETTER

The offer of the Steelpress spare parts has been extended with the bar locks for trailer door - ZD-01 and ZD-02, which perfectly suit to all types of cargo trailers, containers, refrigerators, etc.

ZD-01 / ZD-02 is:

- a full set including handle and tubes,
- anti-corrosion protection: galvanic zinc.

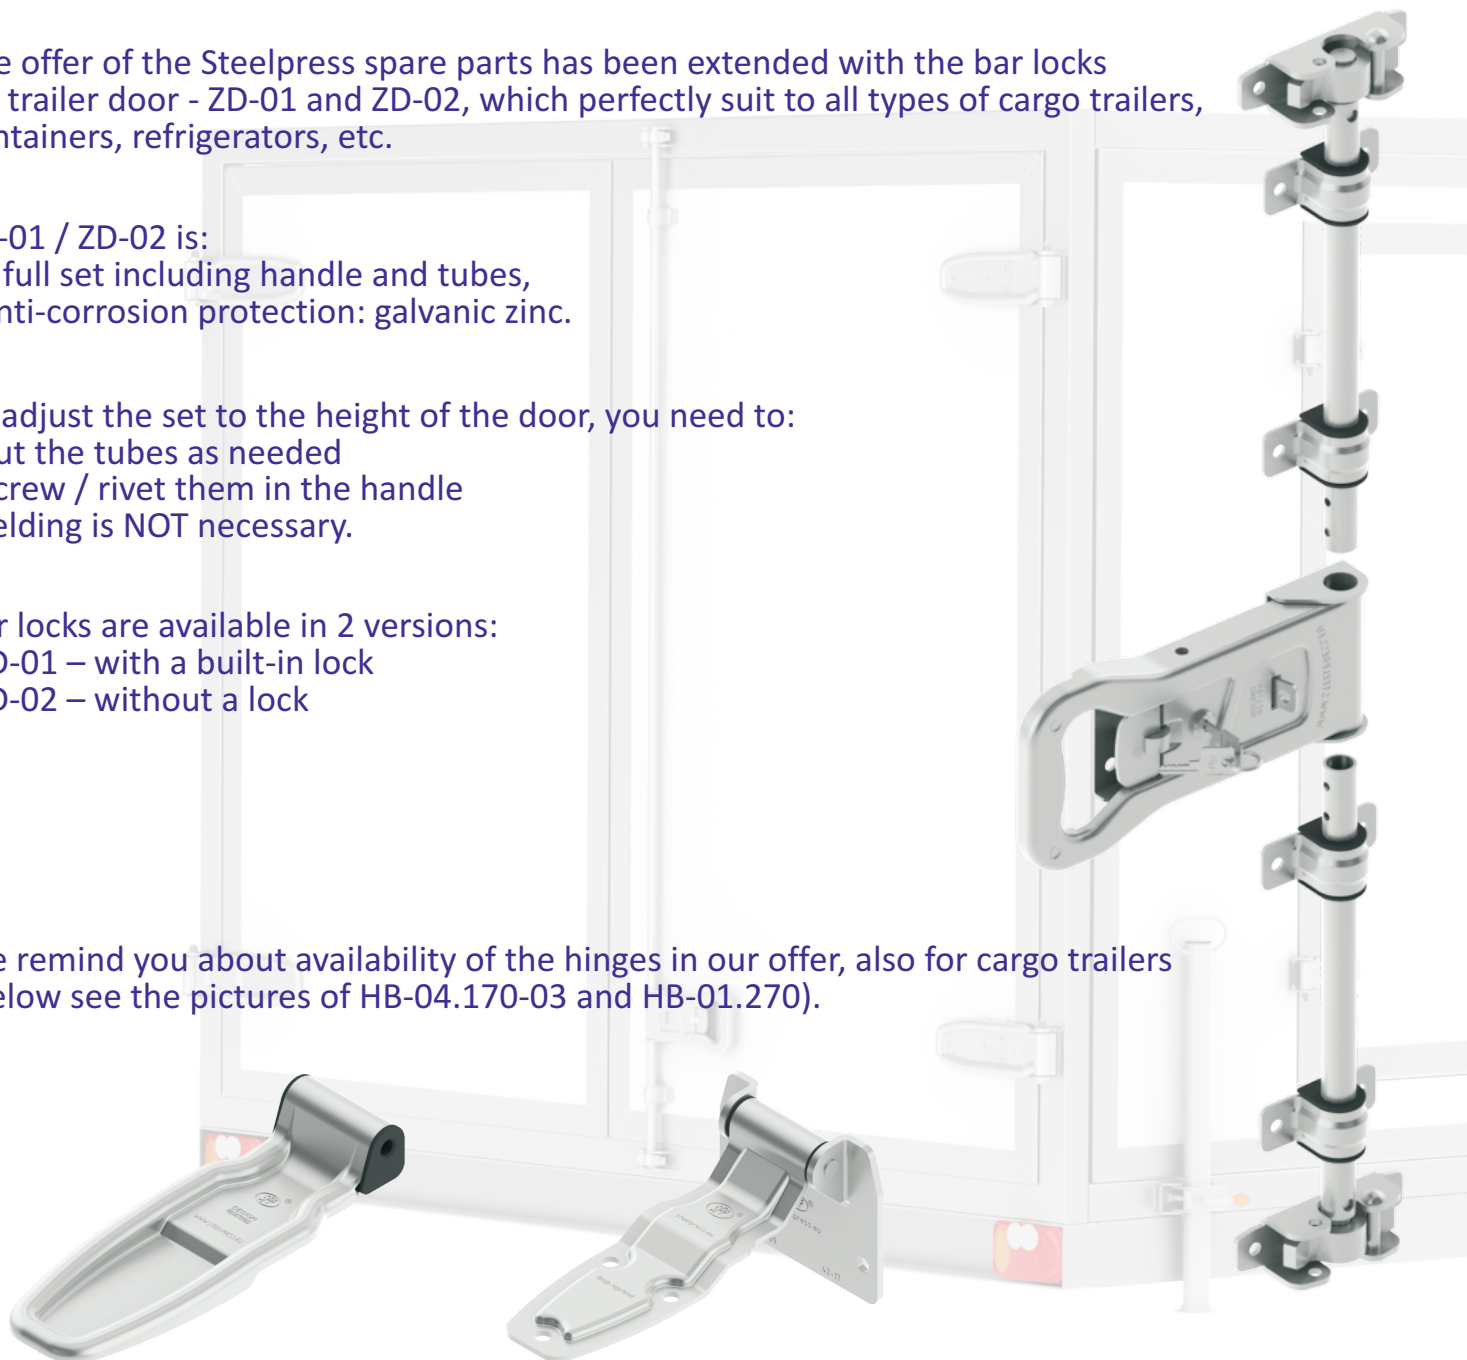

To adjust the set to the height of the door, you need to:

- cut the tubes as needed
 - screw / rivet them in the handle
- Welding is NOT necessary.

Bar locks are available in 2 versions:

- ZD-01 – with a built-in lock
- ZD-02 – without a lock

We remind you about availability of the hinges in our offer, also for cargo trailers (below see the pictures of HB-04.170-03 and HB-01.270).

In case of any further questions please contact our Sales department.
