## NEWSLETTER 02.2025

### KEY BENEFITS OF THE SPP BOARD LATCHES

#### Longer durability and corrosion resistance

- SPP board latches are made of high quality carbon steel, coated with zinc and lacquer, which guarantees unparalleled protection against corrosion.

#### Precisely defined permissible load

- we were the first in the market to determine the DMC maximum loads of our board latches (200-1190 kg) based on laboratory and road tests, ensuring full transparency and safety of use.

#### Unique Company Standard

- cooperation with the renowned DEKRA institute has allowed us to develop Factory Standard ZN-001, which sets new standards in the industry, confirming the reliability and innovation of SPP strikers.

#### Compensated models

- our advanced technology reduces vibration, increasing comfort and significantly extending the life of trailers.

## NEWSLETTER 02.2025

### RECOMMENDED BOARD LATCHES WITH COMPENSATION

#### ZB-01C

- compatible with: Z-01, Z-02
- GVW= 600 kg

#### ZB-01D

- compatible with: Z-01A, Z-02A, Z-01D
- GVW=600 kg

#### ZB-01E

- compatible with: Z-01B, Z-02B, Z-01C
- GVW=600 kg

#### ZB-01J

- compatible with: Z-01, Z-02
- GVW=600 kg

#### ZB-01K

- compatible with: Z-01A, Z-02A, Z-01D
- GVW= 600 kg

## NEWSLETTER 02.2025

### RECOMMENDED BOARD LATCHES WITH COMPENSATION

#### ZB-01M

- unnecessary bars for board latches
- GVW= 200 kg

#### ZB-02B

- compatible with: Z-01, Z-02
- GVW=650 kg

#### ZB-04

- compatible with: Z-01A, Z-02A, Z-01D
- GVW= 600 kg

#### ZB-04C

- compatible with: Z-01A, Z-02A, Z-01D
- GVW= 500 kg

#### ZB-07C

- compatible with: Z-07, Z-07A
- GVW= 720 kg
